

ARE THE PILLS IN YOUR MEDICINE CABINET FUELING OUR COMMUNITY'S HEROIN PROBLEM?

All too often, the street sale value of each pill is too much of a temptation for people, especially in this economy. Home improvement workers, cleaning staff, cousins, friends, neighbors; every person with access to the pills in your bathroom cabinet is a potential threat to our community.

You don't need to have teens in the house to worry about keeping track of **your own pills in your own home.**

DON'T GIVE YOUR UNUSED PRESCRIPTION MEDICATIONS THE CHANCE TO GET INTO THE WRONG HANDS

Addiction to prescription medication is the most common cause of heroin use in our community today.

After being prescribed pain killers or muscle relaxants for a sports injury or other legitimate medical condition, both teens and adults get hooked and then try to find more drugs on the illegal market.

DISPOSE OF UNUSED MEDICATIONS, LOCK UP THOSE WHICH YOU ARE CURRENTLY TAKING

OPERATION

MEDICINE CABINET

Saturday
March 13th
10am - 2pm.
Suffolk County
Police Department's
6th Precinct 400 Middle
Country Road, Selden
631-854-8600

**A safe and easy way to
dispose of unused and
unwanted Rx drugs.**

Perscription drugs, especially painkillers, are the new "gateway" drugs to heroin for our children.
